Subject: Re: Planning Application 51377 Thele Knapp House, Petersfield Road, Greatham, Liss, GU33 6EU

Dear Sirs,

Please find attached final drawing required for the above application. This drawings shows the proposed roof plan layout for the finished structure as requested.

Following a conversation held with a member of your staff this morning on the telephone, i write requesting that a street scene elevation is not required for the application as the property stated above sits on its own with no properties directly next to it. The cottages to one side of the property are at least 25 metres plus away so any extension to Thele Knapp house would not directly affect the residents of these properties. I understand there is a requirement for these elevations but personally feel that such an elevation would be irrelevant to this application.

I hope you have all you require now to continue with this application as the owner of the property is keen to get planning approval so he can look to commence with the work ASAP.

regards

Sean Annells
