PLANNING CONIRO
12 MAY 2009
RECEIVED

Dear Madam

Re: Planning application

Applicant: Mr D Shea

Proposal: Change of use of land to caravan site for single extended family to include 2 mobile homes, two touring caravans and associated day room with associated alterations to site access.

Site: Fern Farm, land south of Longmoor Road and off Wolfmere Lane, Greatham, Liss GU33 6AB

Planning portal ref PP-00723292

I understand from emails with Ms Wells and my phone call to yourself that you can not register this application without the following

- OS serial no.
- roof plan for day room
- topographical map
- photos of the site

The OS map scale 1:1250 was supplied by Dome Map Services and the Serial number is 00832400. This was covered over by the heading.

I have amended the utility room plan to include a roof plan and will forward this by post today but will also try and email a scanned copy to you.

I would ask you to reconsider your request for a level/ topographical survey as no engineering works are proposed. Use is made of existing drives and hard standing and there is to be no cut and fill or re arrangements of ground levels.

-I was not aware you required photos as well. The client is going to email me some digital photos later this morning and I hope to be able to forward them to you by this evening

I understand that your computer system was down when I rang you and that there may be other matters for me to address which will become apparent once the system is up and running.

Yours faithfully

Mrs Alison Heine
